#### DESCRIPTION

One-Point Stereo Microphone

#### UPC CODE

0272425121840

#### SPPG LOW - SPPG HIGH

Price n/a - \$99.99

- For advanced amateur use
- For instrumental recording
- Ideal for Sony MD Walkman™ and DAT Walkman® Portable Stereos
- One-Point Stereo design
- Mid/Side (MS) capsules with switchable pickup angle
- Oxygen-free copper (OFC) mic cable
- Gold-plated L-shaped stereo miniplug

#### POSITIONING STATEMENT

- The handy, compact, stereo microphone for sensitive, wide-range music recording.

#### FEATURES

- For advanced amateur use
- For instrumental recording : thanks to Sony's sensitive ELECTRET CONDENSER MICROPHONE design
- Inconspicuous, compact design : for easy portability
- One-point stereo design : a single mic for stereo recording-is like having two microphones in one
- Ideal for portable DAT or MD Digital recorders : with wide DYNAMIC RANGE to complement Digital recording systems
- Mid/Side (MS) capsules : for natural stereo panorama; the Mid capsule picks up monophonic sound while the Side capsule picks up left/right difference sound; subtracting and adding the two capsule signals yield separate Left and Right channels - also permit electronic adjustment of pickup angle
- Mid/Side (MS) switch : selects pickup angle between left and right channel; choose 90° for a single voice or instrument or 120° to pick up many voices and instruments, arranged across the stage
- Oxygen-Free Copper (OFC) cable : for minimum loss, minimum noise
- L-shaped stereo mini-plug : fits portable recorders
- Gold-plated plug : for maximum conductivity, minimum noise
- Triangular shape : fits comfortably in the hand
- Supplied accessories : include a stand/holder, windscreen and carrying case

#### SPECIFICATIONS
